

December 26, 2025: Letter to Representative Diego Bernal

Good morning,

I hope that your Christmas holidays are going well.

Unfortunately, for your constituents, our holidays are still being marred by the apparently unstoppable and insatiable demand by President Donald Trump to use a team of criminals to spy on our life using tools of the National Security apparatus and military of the United States of America.

I am writing to alert your office that Donald Trump is using the tools of the United States Space Force, in cooperation with, and with facilitation by, the Space-X Star-Shield Program, to operate a large private nuisance over our life.

My wife and I literally live with a team of spies watching over every moment of our home 24/7 while they attempt to drive 'nonverbal' messages into our house using 'acoustic bombardment.'

I have been writing to all of my representatives for a very long time now and nobody seems able to stop Donald's obsessive compulsive needs to force himself into our life as if we were a young model of his desire. To be blunt, our home is being raped by Donald Trump's spying presence.

We live every moment within a bubble of oppression that is being manipulated by a gang of criminals that are beginning inside of the USA government as criminals within the military and intelligence community, and that is paired with a team of criminals outside of the government using the Freemason 'Secret' Society that is plainly working in the open at this time to oppress our local, national, and international community.

I can state all of these facts with supporting proof of each allegation and I have reported this to the local police in San Antonio, Texas, the local police in Periana, Spain (where my wife and I moved in an attempt to flee from this ongoing nuisance), to the state wide Texas Rangers, to the Federal Bureau of Investigation, and to the United States Secret Service. Unfortunately, none of those law enforcement agencies is ready or willing to enforce the law against their own departments, leaders, or controlling agencies.

So, here we sit, oppressed by a spying machine-monster, paid for by the USA tax-dollars, and operated by a vengeful toddler named Donald Trump. I am a former supporter of his that is now being held within a 'Catch and Kill' bubble of oppression to keep my testimony from reaching the public and the court system.

Ever since I began investigating the voting results of our local and statewide elections, this government gang has become more and more intrusive into my life - as a form of intimidation. Apparently, their message is that if I look into their activities, then they will be looking into my activities. However, this spying presence has been investigating my life since before I ever looked into their criminal operation.

The basic message that I am sending to you is this: 1) I am an attorney that filed public information act requests about the 2020 election; 2) I used to be the Precinct Committee Chair of Precinct #2053 for the Republican Party of Bexar County, Texas; 3) Donald Trump's campaign began 'anonymously' sending messages to me in communications; 4) their team began threatening to kill me and did send a gunman to threaten me in my front yard (I reported

this to SAPD on August 08, 2024); 5) their team has traveled along-side my wife and I on multiple occasions all the way to Spain and back where they also installed this same operation; and 6) since returning to the USA and contacting all of my representatives I still live under the criminal conspiracy of Donald Trump as he exerts himself as the absolute authority of everything - period.

I am not expecting much from your office, except I hope that you will spread this message to everyone that you can in order to update our community of the ongoing risks to our lives as Donald Trump's criminal operation continues to operate within our world and without any oversight whatsoever to 'check' or 'curtail' his insatiable and unstable need for vengeance and control over others.

Personally, I believe Donald Trump is exhibiting signs of serious mental illness in his obsessive need to cause pain in our life. I have investigated the medical terms that would best describe Donald's ongoing operation and it appears to be 'Sadistic Personality Disorder' rather than 'Harm OCD' because this team is clearly gaining some sort of 'joy' from causing harm to our home.

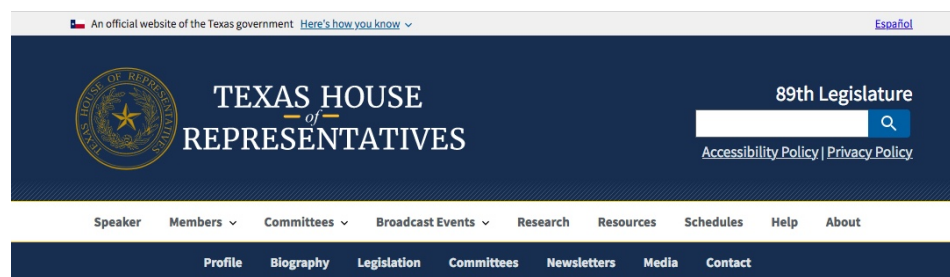

Truly, the more that we seem to be harmed by this process, the more that this spying operation seems to be 'satisfied' with its efforts. As if, causing us pain is the goal of their daily operation.

As a citizen that is experiencing an ongoing operation (four years or more now since this began) to continuously cause pain and suffering in their life from within the government that is supposedly 'representing' my interests, I am alerting your office that this is in fact an ongoing 'psychological warfare operation' from the President himself and I am outright accusing him of treason.

Please spread this message to help protect others from the continuing downfall of the wannabe mafia-Don, Trump.

Kindest regards,

Chris Noel Carlin

Rep. Bernal, Diego M.

Thank you. Our office has received your feedback.
